

BRAND PRESENTATION

MANNOL®

MANNOL[®]

ONE OF THE BIGGEST FACTORIES IN NORTHERN EUROPE

The MANNOL brand has been on the engine oil market for over two decades and has won the confidence of millions of car enthusiasts and professionals worldwide.

It is the current brand owner UAB SCT Lubricants who initialised a large-scale modernisation process in 2004. All MANNOL products are manufactured under thorough control on the best equipment. Not only do we produce lubricants, we also fill them into self-made metal and plastic containers.

The MANNOL product range includes a large variety of more than 100 different synthetic and semi-synthetic engine oils and fluids, such as engine oils for cars, transporters, motorcycles, trucks and buses as well as gear oils and fluids, fuel additives, brake fluids, cooling fluids and industrial oils.

Numerous leading organisations have confirmed the high quality of MANNOL lubricants and fluids as well as their compliance with all requirements by issued quality certificates and approvals. In addition to high quality, the MANNOL brand is proud of its traditionally fair prices for products.

4 GREASES

8121 White Grease
8025 Brake Grease
9896 Kupferpaste
1103 Emulsion
1101 Kettenoel
8402 Universal Grease EP1 Ester
8401 Universal Grease EP0 Ester
8033 STP Grease Ester
8032 Graphite Grease Ester
8031 Lithium Grease LT-43 Ester
8030 Low Viscosity Grease Ester
8029 High Temperature Grease LC2 Ester
8028 Universal Multi-MoS2 Grease EP2 Ester
8027 Universal Multipurpose Grease MP2 Ester
8026 Marine Long Term Grease WR2 Ester
8117 Universal Multi-MoS2 Grease EP3 Ester

5 ADDITIVES

9992 Diesel Ester De-Icer
9991 Molibden Additive
9990 Motor Doctor
9983 Winter Diesel
9968 Getriebeoel Leak-Stop
9966 Radiator Leak-Stop
9965 Radiator Flush
9958 DPF Cleaner
9957 Injector Cleaner
9956 Diesel Jet Cleaner
9955 Cetane Plus
9954 Octane Plus
9950 Benzin Ester Additive
9943 Motor Doctor + Ester
9939 Burning Booster
9930 Diesel Ester Additive
9929 Ester Additive
9923 Power Steering Leak-Stop
9903 Getriebeoel Additiv Manual
9902 Getriebeoel Additiv Automatic
9900 Motor Flush
9875 Cooling System Quick Repair
9829 Ceramo Ester
9423 Oil Leak-Stop
9009 Motor Flush Professional

6 ANTIFREEZES AND COOLANTS

4011 AG11 Antifreeze (-40 °C)
4111 AG11 Antifreeze
4211 G11Coolant
4012 AF12+ Antifreeze (-40 °C)
4112 AF12+ Antifreeze
4212 G12+ Coolant
4013 AG13 Antifreeze (-40 °C)
4213 G13 Coolant
4113 AG13 Antifreeze
4014 AG13+ Antifreeze (-40 °C)
4114 AG13+ Antifreeze
4214 G13+ Coolant
4015 Af13++ Antifreeze (-40 °C)
4115 AF13++ Antifreeze

7 HYDRAULIC AND BRAKE FLUIDS

9894 Air Brake Antifreeze
8990 Central Hydraulic Fluid
8980 Power Steering Fluid
8970 Power Steering Fluid
8302 LDS Fluid
8301 LHM+ Fluid
8203 ATF-A PSF
3005 Brake Fluid DOT-5.1
3003 Brake Fluid DOT-3
3002 Brake Fluid DOT-4

Modern engines require oils that are perfectly matched to their needs. With MANNOL engine oils you can quickly and accurately find the best oil for your vehicle, regardless of whether it runs on petrol, diesel or gas. You can be sure that only raw materials of the highest quality and the most effective additives are used in the production process so that our oils lubricate your engine excellently under any load and in any weather conditions. Reliability and quality characterise our engine oils as well as an excellent price-performance ratio. In addition, many well-known automobile manufacturers have approved our oils.

MANNOL[®]

ENGINE OILS

MANNOL[®]

**TRANSMISION FLUIDS
AND GEAR OILS**

The transmission is at least as important as the engine for a vehicle. This essential component requires permanent lubrication with durable gear oils. MANNOL offers the ideal transmission oils and fluids for your vehicle, regardless of whether it has a manual or automatic transmission. A smoother shifting increases driving comfort, while lower friction in the transmission reduces wear of the separate parts and thus prolongs their service life.

In addition to fuel and oil, a vehicle also requires other service fluids. These include, among others, antifreezes, brake fluids and power steering fluids. These are necessary to ensure that your vehicle is fully operational at all times. The MANNOL range includes a broad spectrum of reliable high-quality service fluids. It is advisable to replace service fluids in the same way as engine oil at the intervals specified by the manufacturer so as not to run the risk of certain functional components of the vehicle not functioning correctly or failing.

MANNOL[®]

SERVICE FLUIDS

MANNOL®

GREASES

The MANNOL product range also includes a wide variety of greases designed to lubricate gearboxes, rolling and plain bearings, crosspieces of cardan shafts, chassis and all other movable mechanisms. Reduced friction and wear also minimise the likelihood of jamming. In addition, the greases are waterproof and provide excellent corrosion protection, ensuring long service life of the treated parts. Depending on the respective product, the greases can be used in a wide temperature range thanks to their high heat resistance.

In daily use, vehicles are exposed to many unfavourable factors: extreme temperatures, dust and road dirt. In addition, the interior wears off, which is particularly visible on the steering wheel, seats and dashboard. MANNOL offers an extended range of car care products to maintain the value of your vehicle and reduce wear. On the exterior for lacquer, tires, headlights, windows, plastic and chrome parts, on the interior for upholstery, leather, dashboard and air conditioning systems.
